Phantoms of the Skies J. Allan Danelek

This book tells the true story of aviation as it evolved from mankind's first primitive attempts to fly to the remarkable successes of the early twentieth century in a non-technical and even fun way, designed to impress upon the reader that the history of aviation is richer and more remarkable than they ever imagined. It is also a tribute to the men-and a few women-who laid the foundations that made not only Kitty Hawk possible, but Von Zeppelin's great dirigibles a reality as well. Most of the names and events mentioned in this book are known to only a handful of aviation enthusiasts and practically unknown to the general public, making this work an important recounting of the lost history of aviation that demands to be told. Some of it is controversial. Parts of it are contentious, and some of it is even speculative, but all of it is a valuable insight into an era when men dared to dream great dreams and bet their lives on the results. Many times they paid dearly for such presumptuousness, but without their sacrifices, the safety and ease of air travel we enjoy today would not be possible. But even more than a retelling of history, it is also a compendium of over 150 patent office blueprints produced between 1847 and 1903 that faithfully capture the spirit of the age. Carefully reproduced from original drawings, they perfectly illustrate the enthusiasm of technology that ran through the world during the height of the industrial revolution, and though many of the designs were impractical, fanciful, and even outrageous, they are an important part of the infant steps aviation took as it tried to find its wings at a time when anything was thought to be possible.

From reader reviews:

Eleanor Williams:

Precisely why? Because this Phantoms of the Skies is an unordinary book that the inside of the guide waiting for you to snap this but latter it will zap you with the secret that inside. Reading this book close to it was fantastic author who also write the book in such wonderful way makes the content inside easier to understand, entertaining technique but still convey the meaning totally. So , it is good for you because of not hesitating having this anymore or you going to regret it. This unique book will give you a lot of positive aspects than the other book have got such as help improving your ability and your critical thinking method. So , still want to hold up having that book? If I had been you I will go to the e-book store hurriedly.

Robert Bell:

Playing with family in a very park, coming to see the ocean world or hanging out with friends is thing that usually you could have done when you have spare time, in that case why you don't try point that really opposite from that. 1 activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition details. Even you love Phantoms of the Skies, you may enjoy both. It is fine combination right, you still would like to miss it? What kind of hang type is it? Oh occur its mind hangout people. What? Still don't obtain it, oh come on its identified as reading friends.

Aurora Foster:

That guide can make you to feel relax. That book Phantoms of the Skies was colourful and of course has pictures on the website. As we know that book Phantoms of the Skies has many kinds or genre. Start from kids until young adults. For example Naruto or Private eye Conan you can read and feel that you are the character on there. So , not at all of book usually are make you bored, any it makes you feel happy, fun and loosen up. Try to choose the best book for you and try to like reading this.

Gordon Frederick:

A lot of e-book has printed but it is different. You can get it by world wide web on social media. You can choose the best book for you, science, comedian, novel, or whatever by searching from it. It is referred to as of book Phantoms of the Skies. You can add your knowledge by it. Without making the printed book, it may add your knowledge and make an individual happier to read. It is most crucial that, you must aware about book. It can bring you from one place to other place.
