Analytical Tools for Environmental Design and Management in a (Eco-Efficiency in Industry and Science)

Analytical Tools for Environmental Design and Management in a (Eco-Efficiency in Industry and Science)

The aim of this book is to link demand and supply of environmental information in the field of Life Cycle Management. The book is based on the results of the CHAINET concerted action financed by EU-DGXII for the work period 1998-2000, and is intended to build bridges between the different scientific communities in the field of Life Cycle Management. A structured approach is followed, meaning that both demand and supply of environmental information are characterised, after which the two are linked.
