Holding China Together: Diversity and National Integration in the Post-Deng Era

Holding China Together: Diversity and National Integration in the Post-Deng Era

Despite many predictions of collapse and disintegration, China has managed to sustain unity and gain international stature since the Tiananmen crisis of 1989. Originally published in 2004, this volume addresses the 'fragmentation/disintegration thesis' and examines the sources and dynamics of China's resilience.

Through theoretically informed empirical studies, the volume's authors look at key institutions for political integration and economic governance. They also dissect how difficult policies to regulate economic and social life (employment and migration, population planning, industrial adjustment, and regional disparities) are designed and implemented. The authors show that China's leaders have retained authoritarian political institutions, but have also reinforced and modified them, constructing fresh ones in the light of changing circumstances. Institutional and policy adaptations together have helped shore up political authority and create an environment for rapid growth, while accommodating growing diversity.
