Action, Knowledge, and Will

Action, Knowledge, and Will John Hyman

Human agency has four irreducibly different dimensions ? psychological, ethical, intellectual, and physical ? which the traditional idea of a will tended to conflate. Twentieth-century philosophers criticized the idea that acts are caused by 'willing' or 'volition', but the study of human action continued to be governed by a tendency to equate these dimensions of agency, or to reduce one to another. Cutting across the branches of philosophy, from logic and epistemology to ethics and jurisprudence, *Action, Knowledge, and Will* defends comprehensive theories of action and knowledge, and shows how thinking about agency in four dimensions deepens our understanding of human conduct and its causes.
