Knights Templar in Britain Evelyn Lord

The Knights Templar In Britain examines exactly who became knights, what rituals sustained them, where the power bases were, and how their tentacles spread through the political and economic worlds of Britain before their defeat at the hands of the Inquisition some two hundred years later.

Founded in the early twelfth century, the mysterious Knights Templar rose to be the most powerful military order of the Middle Ages. While their campaign in the Middle East and travels are well-known, their huge influence across the British isles remains virtually uncharted. For readers interested in Medieval History.
